# Company Introduction

## SURE SMILE ALIGNER

At Sure Smile Aligner, we believe in delivering confident, healthy smiles through cutting-edge orthodontic solutions. Our clear aligners are designed to be effective, discreet, and comfortable — empowering patients to align their teeth without compromising on lifestyle.

## OUR MISSION

To provide premium, accessible, and personalized orthodontic care using advanced clear aligner technology.

## OUR VISION

To lead the future of orthodontics by blending innovation, precision, and aesthetics — making confident smiles achievable for everyone.

## GLOBAL EXPERTISE

Sure Smile Aligner proudly partners with MaxFlex Aligner, a globally trusted manufacturer known for its technological superiority and proven results.

# Our Global Partner: MaxFlex Aligner

## ABOUT MAXFLEX

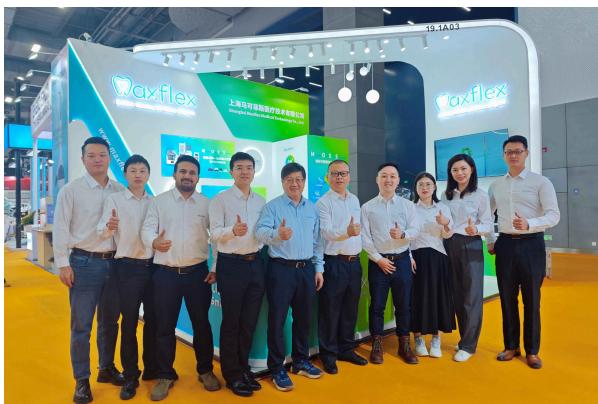

MaxFlex Aligner is a renowned global aligner producer recognized for precision manufacturing, quality materials, and patient satisfaction across international markets. Their commitment to innovation ensures that every aligner is crafted with the utmost accuracy and comfort.

## WHY MAXFLEX?

- Advanced 3D printing and thermoforming systems
- Precision fit for all case complexities
- High-volume, trusted production with consistent quality

## PROVEN TRUST

With thousands of successful cases globally, MaxFlex is a proven and reliable partner in transforming smiles.

# OUR PRODUCT: SURESMILE ALIGNERS

## WHAT ARE CLEAR ALIGNERS?

Clear aligners are transparent, removable trays that gradually shift your teeth into their ideal position. They're an aesthetic and comfortable alternative to metal braces.

## HOW THEY WORK

- 01 Consultation & 3D Scan
- 02 Treatment Planning by Smiling-Orthodontics
- 03 Production of Custom Aligner by MaxFlex
- 04 Regular Progress Checks
- 05 Retainers Post-Treatment

## MATERIALS

Made from BPA-free, medical-grade thermoplastic, SureSmile Aligners are safe, durable, and stain-resistant — designed for everyday comfort.

# PRODUCT BENEFITS

## No Food Restrictions

Eat freely — just remove the aligners during meals.

## Comfortable & Removable

Smooth design with no metal wires or brackets.

## Discreet Appearance

Nearly invisible, perfect for adults and teens alike.

## Customized Per Case

Every treatment is tailored to each patient's unique dental structure.

## CLEAR ALIGNERS VS BRACES

Feature	SureSmile Aligners	Traditional Braces
Aesthetic	Clear/Invisible	Visible Metal
Comfort	High	Moderate
Removable	Yes	No
Food Restrictions	None	Many
Hygiene	Easy Brushing/Flossing	Harder to Maintain

# FREQUENTLY ASKED QUESTIONS

01

**Q: How long does treatment take?**

A: Depending on case severity. Mild case need 180-200 days

02

**Q: Can I eat with the aligners in?**

A: No. Remove them during meals for best results.

03

**Q: How often do I wear them?**

A: Wear them 20 hours a day, removing only for eating and brushing.

04

**Q: Are they painful?**

A: Every set aligner when start first day may be mild pain. Which is completely tolerable by patient. Other wise no pain.

05

**Q: How often are check-ups?**

A: Every 2 months, or as advised by your dental provider.

06

**Q: Are your aligners suitable for all types of dental misalignments?**

Best for mild and moderate cases
