ANNO®

✦ Design Concept

In accordance with the ergonomic and planetary design, ANNO shoes can effectively reduce muscle aches and pains caused by prolonged standing.

The design of massage particles on the inner sole is more effective in relieving fatigue.

The granules in the insole and the ventilation holes on both sides can keep the feet dry.

The front elephant trunk hole exhaust design can avoid liquid flow into the shoe to avoid pollution.

Special material application with anti-bacterial functions.

New material application, effective anti-slip, wear-resistant and durable.

✦ Use and Maintenance

Wash with clean water or cleaning solution and dry at room temperature or wipe dry with a cloth.

Specialized machine washing, which can be sprayed with drying liquid and dried automatically.

Disinfection by immersion in disinfectant solution or machine cycle rinsing.

Please use with care on slippery floors with soapy water, oil stains, etc.

✦ Intended Uses

Hospitals and other health research institutions, pharmaceutical, food, cosmetic industries, clean rooms, hotels, catering companies, home leisure activities
